

# PhD student Recruitment

## Qualifications

A completed or near completed MSc degree in any of the following: cell biology, molecular biology, biochemistry, physiology or a related discipline is required.

Applicants must have excellent/very good marks to apply for a scholarship. The scholarship (\$40,000 CAD/year for 4 years) is specific for international students and for doctoral studies only.

Applicants must have published their work as well.

## To Apply

Applicants should submit by January 27, 2017, a letter of application, curriculum vitae, and academic transcripts to: Dr Tsiani via email [lttsiani@brocku.ca](mailto:lttsiani@brocku.ca)

Studies will be performed in Dr Tsiani's lab located in the Cairns Family Health and Bioscience Complex (CFHBRC), Brock University, St Catharines, Ontario, Canada.

Brock University is located in St. Catharines atop the Niagara Escarpment, near Niagara Falls, and just a 30-minute drive to New York State and within an hour's drive to Hamilton and Toronto.
